

Google Classroom Setup Guide

Parents,

In our effort to assist our students who are quarantined at home due to the pandemic, all teachers have setup Google Classroom pages to relay material to their students. Tests will not be given over Google Classroom at this time; rather, Google Classroom will be used to convey messages from class as well as non-test assignments and material covered during in-class lectures.

Your child's teacher will provide you with login credentials for Google. Sign-in to Google in Chrome using the username and password provided by your child's teacher. Then go to Google Classroom either by clicking the App Launcher () at the top right side of the screen and selecting Google Classroom () or by typing the URL classroom.google.com in the omnibox. Your child must be logged into their Pike Lib account in order to access the class.

Once there, you will click on the plus at the top right side of the screen to join a class. Enter each of the class codes provided by your teacher.

That's it...you are setup in Google Classroom. You may contact your child's teacher with any classroom content-related questions or you may contact Mr. Mathews at tech_support@pikelib.com with any technology-related questions. Also, please feel free to watch the short tutorial video on Google Classroom by Mr. Mathews found by [clicking here](#).

Thank you so much as always for supporting your children and our school. Go Pike!
